

Gentlemen:

Please deny the CBA petition request to pre-empt Indiana's DO NOT CALL law with the weaker federal DO NOT CALL law. The petitioners believe that if I knowingly or unknowingly ever established a business relationship with them that I want to receive marketing calls from them and all their associates now and in the future. This thinking might be correct from the CBA viewpoint but as a consumer I feel it is my right to choose when and how I have any contact with them, and I certainly DO NOT WANT any telemarketing from them. Please rule in favor of the Indiana DO NOT CALL law and against the CBA petition.

Thank you
